

**WE'RE OPEN  
AND HERE  
TO HELP**

# WE'VE GOT ALL YOUR PARTS, BODYSHOP & SERVICE NEEDS COVERED, SAFELY!

We have taken additional action to ensure our customer's and employee's safety by executing a continued and heightened sanitizing and cleanliness routine, scheduled multiple times a day throughout our facility and the vehicles we are servicing.

In addition to our determination to provide a safe and healthy environment for your team and our employees we have increased our support of your business with the following solutions:

- Offering a NO CONTACT-NO COST Service pickup and drop-off option.
- We have revamped our process to focus on 24 Hour return time, from write up to completion. We're currently executing at >80% on qualified repairs.
- We have implemented clearly established "Social Distance Areas" within our waiting lounges
- Our Parts Department and Body Shop remains fully operational.
- All vehicles are sanitized before and after each ingress/egress of the unit with particular attention to steering wheels, controls, and door handles.
- We have established a playbook of ongoing and continued sanitizing of our entire dealership throughout the day.
