ELECTRIC

ZERO EMISSIONS

A severe-duty vehicle success story 75 years in the making, Battle Motors is a new nameplate to many, but we are no newcomer to the industry. Indeed, we are building upon decades of design and engineering knowhow, thanks to the manufacturing legacy of our predecessor, Crane Carrier Company. Today, we are forging a new road ahead in the vocational truck industry, producing work-ready diesel, compressed natural gas (CNG) and now a fully electric chassis designed and manufactured in America's heartland.

Purpose-built for the toughest jobs, if you need battle-tested trucks for fleets of any size, we have got two words for you: Bring It. That is because our durable, dependable trucks are built to excel in a multitude of environments and applications including refuse, recycling, construction, utility and now middle-mile and last-mile delivery.

In the electric vehicle category, Battle Motors is leading the charge with an unrivaled powertrain (and charging solutions) designed in conjunction with world-class US partners. Keeping your operations in the front seat when it comes to the latest in-cab technologies, all our trucks now feature our Smart Cab platform. This pairs our proprietary software system, RevolutionOS™, with factory-installed, ruggedized digital instrument clusters that deliver actionable data and information to drivers and fleet managers to enhance safety, efficiency and security.

Our ambitious vision is already in overdrive, with more than 750 municipal customers through 180 dealers in over 320 locations across the United States and Canada. Our state-of-the-art, 325,000-square-foot manufacturing facility gives us a clear runway to scale-up and transform our customers' operations—through the deployment of fully electric trucks designed to deliver unparalleled comfort, safety, visibility and reliability paired with lower maintenance costs, reduced noise and zero carbon emissions.

At Battle Motors, we are ready to roll into the future. We hope you can join us for the ride.

# LET II

## LOW ENTRY TILT II

### DIESEL

The Battle Motors LET II is a workhorse that incorporates sophisticated engineering and quality that is built to last. Its rugged framework, durable cab construction, and attention to detail make this model a top choice in premier refuse and recycling collection fleets across the country.

True low entry 18" step-in height on both sides

With the lowest step-in height in the industry, the Battle Motors LET II is packed with best-in-class features to maximize safety, increase space, and enhance maneuverability. An all-around powerhouse, the LET II thrives in all applications and environments.

Standard LED projection headlamps

Cast steel, tubular crossmembers provide consistent strength fore and aft, side-to-side

Large, flat, glass windshield; simple to replace and cost effective compared to complex, curved glass

Remote mounted 1,814 square inch radiator produces quieter, cooler cab environment and allows for a pass through cab design

CLASS	7 and 8
GVWR	46,000 - 72,000 lbs
HORSEPOWER	300 - 430 hp
TORQUE	860 - 1,650 lb-ft
ENGINE	Cummins L9 or Cummins X12
TRANSMISSION	5 <sup>th</sup> Generation Allison 3000/3500 RDS or 4000/4500 RDS
CAB WIDTH	94 inches
STEERING	LH, RH, or Dual
SEATS	2 or 4
DOORS	Standard, Bi-Fold, or Flip

AVAILABLE IN DIESEL, CNG, AND ELECTRIC

# 75 YEARS OF EXCELLENCE

Sophisticated engineering, best-in-class features, and attention to detail are nothing new for Battle Motors. Built upon Crane Carrier Company's 75-year legacy of continuous improvement and quality that is built to last, Battle Motors trucks are the toughest trucks on the road today.

With over 320 dealer and service locations across North America and Canada, as well as direct access to parts, support, and factory-trained technicians, Battle has your back.
