# ALLIANCE PARTS

Alliance Heavy Duty Clutches offer a genuine alternative to original first fit clutches without sacrificing quality or reliability. Built to OE specifications for most makes and models of heavy-duty trucks, to ensure confident, smooth shifting and long clutch life. The Torque Performance clutches are built and designed specifically for the Australian market and include an HDD (heavy duty damper) design that provides the strongest disc in the clutch industry. Components are all 100% new, sourced from one of the United States leading independent clutch manufacturers.

ABP N25 A0032502115

Prevent the need to pull your transmission again after you have completed your clutch installation. Replace all clutch related wear components to ensure smooth engagement and reduce the chance of misalignment. Receive an additional year warranty when installing an Alliance clutch installation kit with and Alliance clutch.
