Customer Disclaimer and Important Information

Refrigerators: We are not responsible for keeping vehicles plugged in nor any auxiliary power units (APU's) running. Many types of repairs (batteries, wiring, fuel system, and generator) can prevent the unit from running. If there is food in the refrigerator, it should be removed before repairs begin. The Velocity Vehicle Group and its subsidiaries will not be liable for any food spoiling or associated cleaning costs from food being left in the vehicle.

Items Secured and Repair Access: All items in the vehicle need to be secured before work is started on the unit. As a part of our quality control, we road test vehicles. We want to avoid damage or anything breaking while the vehicle is being driven because items were not properly secured. The Velocity Vehicle Group and its subsidiaries will not be held liable for any items that may have shifted during repairs or during vehicle operation. Before repairs begin, access to the area where the work will be performed including the engine hatch needs to be clear of any obstructions such as bedding, cargo, closet space, clothes, etc. The engine compartment hatch needs to be functional before any repairs are made.

Trailers: All trailers not being repaired need to be parked the designated trailer parking area. The designated lot is made available to customers for your convenience, which has 24 hour access and is unsecured. It is the customer's responsibility to lock and secure the trailer. All equipment left in the after hours lot is done so at your own risk. The Velocity Vehicle Group and its subsidiaries is not responsible for any damages or theft for any equipment being stored in this lot.

In Shop Vehicle Access: Persons are not allowed in the vehicle or in the shop while repairs are being made. We want everyone to be safe, which is why the shop floor is for trained and authorized employees only. Customer are required to have an escort and wear safety protection when getting personal items from the vehicle. If sleeping in the vehicle overnight, vehicles will be pulled out of the shop. Vehicles must be travel ready when the facility reopens in the morning so diagnostic or repair work can resume.

Authorizations: Estimates and invoices will reflect standard repair times where applicable. Pre-authorization help expedite repairs and can be given per operation or for a blanket amount and is strongly encouraged. Authorized diagnostic time includes removal of parts as needed for access and/or diagnostic testing. Declined repairs will require additional time for reassembly if desired.

Aftermarket Warranty: If choosing to use an aftermarket warranty, all warranty information needs to be presented at write up including contact information and policy numbers. Aftermarket warranties typically require authorization before repairs are started and will send inspectors to review the diagnosis. We cannot obtain this authorization if we do not have the needed information up front in advance. It is the policy holder's responsibility to provide this information. Any costs not covered or short paid by the aftermarket warranty is the customer's responsibility. Both the customer and aftermarket portions of the invoice must be paid in full prior to vehicle release.

Pets: Pets may remain in the vehicle as long as they are away from the work area, in a secured enclosure, and not at risk for heat stroke/hypothermia with the vehicle not running. Having pets properly secured prevents them from accessing the engine, getting the unit dirty with oil/grease, and keeps them safe. Pets are allowed in our customer lounge if they are kenneled or leashed. While we are pet friendly, it is your responsibility to take care of your pet.

Payment and Storage: All charges for repairs are due and payable upon three days after notice that the repairs have been completed. If the vehicle payment is not completed within three days after notice is given, a storage charge of \$35.00 per day plus any applicable fees will be made for each day thereafter. If any charges remain unpaid for thirty days after request for payment, the Velocity Vehicle Group and its subsidiaries may refer charges to its attorneys for collection along with possible other legal remedies. The customer will be responsible for all incurred costs and attorney's fees.

After Hours Parking and Trailer Drop Options

Velocity Truck Centers, Chandler Location
1230 S Akimel Ln, Chandler, AZ 85226 | 480-282-4000

There is an after hours lot just south of our gated facility labeled with signage that shows our company logo. This space is provided as a courtesy to our customers to facilitate after hours drop off and pick ups. RV hook ups are available upon request along the west fence. There is designated trailer parking available with a concrete landing pad. We request customers park trailers not being repaired in this lot in order to free up space for vehicle parking around our facility.

Please be aware that parking in the after hours lot is at your own risk. This lot is not secured nor monitored. Velocity Truck Centers assumes no liabilities for any losses related to vehicle or trailer damages, thefts, or any issues surrounding content left within the vehicle or trailers. Parking is provided as a convenience only. We do not control, manage, or supervise entry, parking, or exit of vehicle or trailers. There is a trailer release form that we need signed if your trailer is being parked in the after hour lot. Please see our service staff to make sure this is signed when your vehicle is dropped off for service.

A map with the location of the after hours lot is shown below. Trailer parking is highlighted in **YELLOW**.
